## Looking Forward: HTI-2 & ONC's Commitment to Furthering the Vision of Better Health Enabled by Data

The Office of the National Coordinator for Health Information Technology's (ONC) recently published an [article](#) discussing their ongoing efforts to enhance data interoperability in healthcare through the development of the HTI-2 rule, focusing on public health data modernization and API certification for improved care delivery.

---

Thank you to the North Dakota EMS Association's Annual Conference, NDHIN enjoyed being a part of the event as an exhibitor.

Utilization of NDHIN for EMS can be a great benefit, as it aids in the ability to review medical history of the patients they serve and information from other facilities, including their encounter history. This allows them to see if patients have had ED visits at multiple facilities. Getting access is easy and is useful in the field as well as for quality improvement and case follow ups.

## Could Dentist Participation in HIE Unlock Patient-Centered Care?

A partnership in Colorado will look at how adding dentists into the state's HIE, CORHIO, will support patient-centered care. Continue reading [here](#).

## Be on the look out!

NHDIN is always looking for ways to encourage new facilities to become a part of our network.

Check out how NDHIN is helping clinicians bridge the gap in patient care by reviewing our current [use cases](#).
